PROFESSIONAL SUMMARY

Motivated and detail-oriented MCA graduate with a strong foundation in Java, SQL, HTML, CSS, JavaScript, and web development. Passionate about developing responsive web applications and solving real-world problems through software solutions. Experienced in building academic projects using REST APIs and modern web technologies. Seeking an entry-level Software Developer opportunity to contribute to organizational success while enhancing my technical skills.

TECHNICAL SKILLS

Programming Languages

- Java
- JavaScript
- SQL

Web Technologies

- HTML5
- CSS3
- JavaScript
- Responsive Web Design
- REST API

Database

- MySQL

Tools

- Git
- Git Hub
- Eclipse IDE
- Visual Studio Code

Core Concepts

- Object-Oriented Programming (OOP)
- DBMS
- Problem Solving

EDUCATION

Master of Computer Applications (MCA)

Nandha Engineering College

Percentage: 84%

Year of Passing: 2026

Bachelor of Science (Computer Science)

Nandha Arts and Science College

Percentage: 82.75%

Year of Passing: 2024

Higher Secondary (HSC)

KVKN Matric Higher Secondary School

Percentage: 74.69%

Year of Passing: 2021

SSLC

Government Higher Secondary School, Singanallur

Percentage: 61%

Year of Passing: 2019

KEY STRENGTHS

- Quick Learner
- Problem Solving
- Self-Motivated
- Team Player
- Positive Attitude
- Adaptable and Responsible

ACADEMIC PROJECTS

1. InternGuardAPI: An Automated Internship Fraud Detection and Mitigation Framework for Job Service Providers

Technologies: BERT, NLP, Machine Learning, REST API

- Developed a BERT-based Internship Verification API to detect fraudulent internship postings.
- Implemented NLP classification techniques to identify genuine and suspicious internship offers.
- Designed a risk-scoring mechanism for fraud assessment and mitigation.
- Automated verification, approval, and reporting workflows to improve recruitment security.

2. Generative Design with Style-Modulated Enhanced GAN Performance

Technologies: GAN, Deep Learning

- Developed a Style-Modulated Enhanced GAN model for high-quality image generation.
- Improved training stability and visual consistency through style modulation techniques.
- Generated realistic synthetic images for AI-driven design applications.

3. Weather Forecast Web Application

Technologies: HTML5, CSS3, JavaScript, REST API

- Developed a responsive weather application using HTML, CSS, and JavaScript.
- Integrated a public weather API to display real-time weather information.
- Displayed temperature, humidity, wind speed, and weather conditions.
- Implemented input validation and error handling for invalid city names and API responses.

LANGUAGES

- Tamil
- English

HOBBIES

- Drawing
- Craft Making

PERSONAL DETAILS

Date of Birth: 19/03/2004

Nationality: Indian

Address: 23rd Senthil Nagar, 4th Street, Thoraipakkam, Chennai – 600096
